IMPACT REPORT

2021 in Review

July 1, 2020 - June 30, 2021

THANK YOU

For Impacting Our Mission

With great joy and satisfaction, I am able to bring you good news of all that is taking place here at Holy Cross Village. As you read this Impact Report you will find that Ed Smith, Foundation President, along with Barb Cassady, Director of Development, and our Foundation Board Directors are doing a fantastic job with the donations received into the Foundation. I want to take this opportunity to thank each one of you personally for your generosity and trust that you impart to our team and to assure you that the Brothers of Holy Cross pray daily for all our benefactors.

As you read this Impact Report, you will be amazed at what we are able to accomplish with imagination and planning for the enjoyment of those who have been entrusted to our care here in the Village. It is of the utmost importance that we are good stewards of these resources. Because of the Covid pandemic, it has been a difficult year for our team, and I am very proud of what they have accomplished during the trying times that we all have experienced.

I would like to highlight a couple of the activities you will read about in this issue. The year 2021 is the tenth anniversary of the Holy Cross Village Unity Garden on our campus. The Garden was made possible through a generous grant from the Order of Malta. For ten years we have supported St. Augustine's Soup Kitchen in South Bend with produce from our garden. This program has provided much needed assistance to the parish and those they serve every day. In addition, this program provides the opportunity for our Village residents to volunteer with the Soup Kitchen clients which brings them together with a common cause in helping others.

The Brothers of Holy Cross, who are celebrating 200 years of existence, continue to bring to the Village the vision of their founder Father James Dujarié and their first director Brother André Mottais. In 1820 these two men established a religious community of young men dedicated to education in post-revolutionary France. Their work in education continues vibrantly to this day. The establishment of the Holy Cross Village Employee Education Fund would have made our Brothers of Holy Cross founders proud.

Holy Cross Village Foundation was created and organized as a 501(c) (3) benefit corporation to financially assist the programs, services, and initiatives of Holy Cross Village. I am thrilled that the Foundation continues to support these projects which serve and enhance the life experiences of our residents.

BROTHER JOSEPH FOX, C.S.C.

Our Mission

HOLY CROSS VILLAGE
Foundation

The mission of the Foundation is to raise funds that help support the programs and services of Holy Cross Village at Notre Dame. It is our quest to build the best senior care community that is energized by Holy Cross spirituality and hospitality. Our mission is centered on our commitment to serve others as a ministry of the Brothers of Holy Cross.

Mary M. Grabner Employee Assistance Fund

“You could be the light in another’s storm.”

There are many storms in a person’s lifetime. Some storms we are able to weather on our own and in others we need support. Fr. Kenneth Grabner, C.S.C., longtime chaplain at Holy Cross Village (HCV), believed we must all “be the light in another’s storm.” Mary Grabner, a former resident of Holy Cross Village and Fr. Ken’s mother, established a fund to financially assist HCV staff in times of crisis. Fr. Ken was a big proponent in making sure assistance was available to staff when needed through this fund.

Since its establishment in 2007, the Mary M. Grabner Employee Assistance Fund has helped 109 HCV staff. The process is fairly simple. An individual reaches out to the HCV Human Resources Department and completes a short form outlining the financial need. Then a small committee reviews the request to determine eligibility. If the prerequisite requirements are met, payment is made directly where the need exists, for instance a payment for car repairs, a utility invoice, or other immediate need. Because the fund’s goal is to relieve hardship, the review period is short, with the aim to make decisions in less than 24 hours of the request. In addition, it is of the utmost importance that assistance is kept confidential.

In March of 2021, Fr. Ken passed away. Soon after his death, HCV Foundation began receiving memorial gifts from HCV staff, residents, and other friends of Fr. Ken. These donations to the Mary M. Grabner Employee Assistance Fund will allow many more individuals to receive assistance when in crisis.

Fr. Ken’s physical presence is missed, but his contagious optimism and enthusiasm, as well as his calling to be the light in the storm will be felt for many years to come.

“The Mary Grabner Fund helped me with unexpected healthcare costs for my child. I didn’t think the process would be so simple. I liked that I never felt looked down on because of my need.”

- Grabner Fund Recipient

Establishing a Legacy Rooted in Education

EMPLOYEE
EDUCATION
FUND

Anita Morse, Holy Cross Village (HCV) resident, has an extensive educational background and has worked in a variety of fields. Looking back on her career she realized her purpose evolved into “being able to give back to students and staff the same opportunities that were given to me.” As Anita reflected on her blessings, she realized that the ongoing educational support she received greatly contributed to her accomplishments. She was able to grow and develop because of the support provided by her family, instructors, and even her work colleagues. Now, Anita is paying it forward.

After several conversations with Barb Cassady, Development Director, Anita decided that the best way to enhance her HCV community was to provide financial support to help HCV staff advance their careers through further education. Types of further education might be certification for an employee in an area that expands their skill set and capabilities or providing management training to a new supervisor. The newly established Employee Education Fund could provide instruction in technology, customer service or any number of soft or hard skills that will help staff advance HCV’s mission.

“Supporting education is supporting us being a better part of a community,” Anita stated. The beauty of this fund is that good education can help an individual better do their job with more satisfaction and confidence, which in turn can then benefit the staff with which they work, and ultimately the lives of our residents. An added benefit of more education is staff retention.

A small committee consisting of our Vice President/General Manager, the Executive Director of Assisted Living and Skilled Nursing and our Human Resources Supervisor will together listen to department heads about what staff educational needs are pressing. *“If you want to attract and retain cream-of-the-crop employees, we must make an investment in our team. Our most valuable assets are our engaged staff that serve our residents.” Edward Smith – VP/GM of Holy Cross Village*

ESTABLISHING A LEGACY ROOTED IN EDUCATION

Anita didn't stop at establishing the Employee Education Fund and annually funding it. She has also made two planned gifts (gifts in her will or trust): one will go directly to the Employee Education Fund and the other is the donation of her Refundable Garage Deposit. With these future gifts, Anita is a proud member of The Saint Brother André Bessette Society, our legacy society where members have pledged their gifts to ensure Holy Cross Village has a sustainable and vibrant future.

Society members are donors who have notified the HCV Foundation that they have made a planned gift to the HCV Foundation. These legacy gifts can include Resident Refundable Deposits, Refundable Garage Deposits, bequests in wills or trusts, and IRA disbursements, to name just a few.

We are grateful for Anita Morse's commitment to HCV and helping us enhance our community. Her annual gifts to the Education Fund will be felt immediately and her legacy gifts will support our future residents.

If you would like to learn more about how to contribute to the Employee Education Fund or about making a legacy gift to the HCV Foundation please contact Barb Cassady, Director of Development.

The Pavilion Project

DONOR PROFILES

Judie & John Hilbrich's family enjoys the pavilion.

Kathie & Pat McAdams

Holy Cross Village (HCV) is blessed to be situated in a picturesque setting. Nestled along the east bank of the St. Joseph River and a serene, wooded area to the north, our gorgeous campus is appreciated by our residents, their loved ones, our staff, and anyone who visits. Even though our campus is beautifully cultivated, HCV leaders and supporters believed we could further enhance HCV grounds.

Three HCV supporters helped launch the initial Gardens & Pathways Project. With their joint gifts, HCV was able to install additional landscaped gardens and benches to encourage individuals to take advantage of nature's beauty. The Denise and Chuck Roemer Garden, The Lookout in memory of Carol Mylod, and Charlotte's Garden memorialize former Village residents who loved the outdoors: Chuck Roemer, Charlotte Sydor and Carol Mylod. They all shared an affinity for the view of the water, fresh air, sounds of nature, grassy and wooded areas, flowers, trees, plants and of course the warmth of sunshine.

When our world was turned upside down during the pandemic last year, having more gardens and pathways to explore was greatly appreciated by all. For our residents, getting outdoors became a safe and welcome respite from the more restricted indoor areas. Being outdoors felt freeing.

A recent addition to the Gardens & Pathways was the construction of a pavilion. This structure, just west of Dujarié House, provides shade, an area to step out of the rain or snow (yes, the Pathways get used year-round) and when it is windy, a place to dodge walnuts if they are falling from the many walnut trees. We are grateful to Kathie and Pat McAdams for their thoughtfulness in providing a gift that can be appreciated all year-round.

Thank you to all our Gardens & Pathways champions: Denise Roemer, Tom Mylod, and Kathie (Charlotte's daughter) and Pat McAdams. Your generosity is a touching tribute to remember your loved ones.

A Toast & Tribute to Tom

DONOR PROFILE

Tom and Lenore Cassady made an early commitment to reside at Holy Cross Village's André Place well before construction even started. They also convinced many of their friends to make the move to Holy Cross Village. They moved into André Place November of 2007 and both quickly embraced their new home and active lifestyle.

Tom, seeing the many benefits of HCV, became a charter director for the newly established Holy Cross Village Foundation. One of his first projects was fundraising for what he and others saw as a need for a new therapy space. At that time, the space was in Dujarié House and occupied a small, cramped room. Thanks to Tom's efforts, as well as other Foundation directors and donors, there was a considerable amount of funds available to help cover the construction costs to create a new therapy area. With the physical expansion of the therapy and rehab program, the new space boasted a spacious therapy gym where multiple patients could comfortably be treated simultaneously. The therapy gym looks out onto the newly named "The Thomas R. Cassady, Sr. Garden" - part of the Gardens and Pathways project and a key component of the therapy and rehab program.

Tom died the summer of 2017 before he could see the fruits of his fundraising efforts realized. After Tom's death, Lenore gave generously to the HCV Foundation in support of the Dujarié House Renovation Project. Lenore's gift would help to refurbish the common

spaces of the Phillip Quinn Memory Care Unit and contribute to the building of the Br. Thomas Shaughnessy, C.S.C. Skilled Nursing & Therapy addition. Tucked between these two areas lies the garden commemorating Tom Cassady. It is very fitting that patients plugging away at their therapy exercises in the Therapy Gym, for which Tom fundraised, can enjoy The Thomas R. Cassady, Sr. Garden.

Early in August, HCV hosted a blessing of the garden. We thank Lenore for her investment in the future of the Village. Her support has

enhanced and expanded areas of Dujarié House for our Village residents and patients. Next time you are in the André Place Dining Room, enjoying a glass of wine, raise your glass and toast Tom Cassady, Sr. In addition to his work for the Holy Cross Village Foundation he was also responsible for getting the André Place liquor license!

10 Years Cultivating Food, Friendships, and Community

Resident Jackie Curran with granddaughter Maeve at 2011 Garden Opening and again 10 years later.

The Holy Cross Village (HCV) Unity Garden began a little over ten years ago when a trio of HCV staff came together to discuss the building of an organic community garden. The hope was this garden would be a way to engage our neighbors, St. Joseph High School (SJHS), Holy Cross College, and St. Joseph Grade School, in an intergenerational endeavor. Very importantly, this project would provide our residents the opportunity to continue their gardening pursuits.

The idea started to bloom when a generous grant from the Order of Malta, American Association, was awarded. The garden site was selected, a fence was installed, and 16 raised beds were built by SJHS students. The Holy Cross Village Unity Garden was off to a good start and many community partnerships were established.

The garden is one of 32 gardens under the umbrella of Unity Gardens Inc., a local organization which provides education, support and much more for area gardens. A weekly harvest of fresh vegetables, herbs, and even flowers are given to St Augustine's Soup Kitchen, where many of our HCV residents have volunteered.

For many years, St. Joseph Grade School K-2nd graders visited the garden, as well as our residents. Whether it was growing pumpkins, having a vegetable scavenger hunt or potting plants in the spring with our residents, the children were learning about where food comes from while engaging with our residents. Currently, a collaboration with Holy Cross College students interested in learning gardening from our residents is in the planning stage. In addition to the benefit to our greater community, the HCV kitchens have access to the garden and can utilize the fresh vegetables and herbs in dining offerings for our residents. Our flowers have added beauty and color at Village events as well.

Ten years in and our garden is still going strong.

Throughout the years, many residents worked tirelessly planting, weeding, watering and harvesting. A Garden Club was established to involve even more residents. The Garden Club has hosted many events such as our annual Salsa & Margarita Party with resident-made salsa from garden ingredients and has hosted two campus-wide Garden Walks to tour our Unity Garden and the patio and balcony gardens of our residents.

2014 brought the expansion of our garden focus with the addition of beehives. Harvested honey has been sold through our bistro and been used as marketing gifts. The HCV Foundation set up a Garden Fund as many residents wanted to help as enhancements were needed for the garden. Donations have also been made to the Garden Fund as tribute gifts in honor of our residents.

Ten years in and our garden is still going strong. The HCV Foundation would like to thank all our partners, especially the Order of Malta, that believed in our dream and made our Unity Garden possible. Appreciation also goes out to our many resident and community volunteers over the years who have given so freely of their time, talent and treasure, to benefit so many here on our campus and in the greater community.
